Index of issues: January, pp. 1-86; February, pp. 87-156; March, pp. 157-226; April, pp. 227-294; May, pp. 295-370; June, pp. 371-442; July, pp. 443-484; August, pp. 485-546; September, pp. 547-618; October, pp. 619-688; November, pp. 689-788; December, pp. 789-926.

A

Abdomen

desmoid tumor of, treatment by resection and abdominal wall reconstruction, 518
surgery of,
intestinal forceps for control of tubulovisceral structures in, 594
using double-angled needle holders and long, angled tissue forceps, 591

Abdominoperineal resection, and radiotherapy, spermatocele following, 355

Abscess

anorectal horseshoe, management of, 793
perianal, Fournier's gangrene following, 582
psorias, diagnosis and etiology, 694

xanthogranulomatous, of Mullerian duct remnant, 755

Abstracts, 84, 155, 222, 292, 369, 440, 483, 545, 616, 687, 783, 911

Acquired immune deficiency syndrome

anorectal diseases in, surgical management, 719
update (current status), 60

ACTH, treatment for ulcerative colitis, bilateral adrenal hemorrhage during, 130

Adenocarcinoma

colorectal, human chorionic gonadotropin expression in, 558
mucinous, with fistula in the cecal region, 507
primary, at an ileostomy site: an unusual complication after colectomy for ulcerative colitis, 572
rectosigmoid, local recurrence, 326

Adenoma

in cancer family syndrome, histopathology, 849
colorectal, 388
squamous differentiation in, 87
dunce cap, 896

Age, as factor in right colon cancer, 227

AIDS, *See* Acquired immune deficiency syndrome

American College of Surgeons, 72nd annual clinical congress and postgraduate course (announcement), 482, 541, 623

American Gastroenterological Association, postgraduate course (announcement), 224, 242, 308

American Joint Committee, staging method for cancer of the colon and rectum, 6

American Society of Gastrointestinal Endoscopy, national postgraduate course (announcement), 221, 229, 363

5-aminosalicylic acid, enemas, spread of in patients with ulcerative colitis, 108

Amyloidosis, complicating inflammatory bowel disease, incidence of, 351

Anal canal, cloacogenic and squamous cancers of, prognosis, 336

Anal dysfunction, balloon topography to evaluate, 1

Anastomosis

anal-ileal pouch
ileostomy for, 300
without temporary diverting ileostomy, 33

colorectal, with EEA stapler following Hartmann procedure, 67
handsewn vs. stapled, in resection for Dukes' B and C colorectal cancers, 344

healing in acute colonic obstruction, 255

ileoanal pouch and colectomy with mucosal proctectomy, *Salmonella typhimurium* infection after, 671

ileorectal, in Crohn's disease, measurement of rectal capacity in assessment of patients for, 443

intestinal, with suturing of intestinal wall (classic article), 776

J-pouch, pouchitis-like syndrome caused by, 515

Parks' coloanal sleeve for treatment of postirradiation rectovaginal fistula, 817

pelvic, low rectal purse-string when using EEA stapler, 69

rectal, by stapling technique, operating proctoscopes designed for, 214

stapled vs. handsewn, in resection for Dukes' B and C colorectal cancers, 344

Androgen receptors

in colonic and rectal cancers, 263
in rectal and colonic cancers, 95

Anesthesia

anal, local, improved technique for, 71
anorectal, in prone position, 676

Announcements, 5, 10, 26, 32, 98, 101, 107, 116, 147, 164, 176, 195, 216, 221, 224, 229, 233, 242, 251, 262, 277, 299, 303, 311, 325, 329, 363, 367, 377, 382, 397, 401, 404, 412, 458, 461, 468, 473, 482, 510, 514, 541, 552, 566, 571, 581, 585, 623, 629, 634, 638, 643, 693, 703, 718, 792, 809, 820, 848

Anorectum

in AIDS and pre-AIDS patients, surgical management of disease, 719
function, after high sacrectomy with bilateral resection of S2-S5 nerves, 271

in filtration anesthesia in prone position, 676

pressure, in patients with symptomatic hemorrhoids, 388
lymphoma, in homosexual men, 413

Antibiotics

chemoprophylaxis in elective colorectal surgery, 157
intraperitoneal (letter), 780

Antigen, carcinoembryonic, immunoperoxidase staining of, as prognostic indicator in colorectal carcinoma, 111

Anus

distalation, bacteremia in, 304

fistula, transsphincteric, treatment by Seton technique, 454

local excision for, improved technique, 71

mucosal ectropion, repair by simple flap procedure, 92

pain, 248

hot and cold, internal anal sphincter pressure changes, 148

pressure, increased following Ripstein operation, 485

stricture, repair by simple flap procedure, 92

Appendicitis

acute, diagnosis and treatment in the aged, 170

Crohn's, in incarcerated Spigelian hernia, 659

perforated, and obstructing colonic carcinoma in the elderly, 668

Appendix

perforation, retroperitoneal, presenting as subcutaneous emphysema of the thigh, 456

pseudomyxoma peritonei of, 469

Armentarium Chirurgicum (classic article), 78

Angiography, mesenteric, influence in outcome of emergency surgery for massive lower gastrointestinal hemorrhage, 561

Asepsis, colonic, postoperative (letter), 686

Autopsy study, diverticular disease of the large bowel in Singapore, 330

B

Bacteremia, in anal dilatation, 304

Balloon topography, as method of evaluating anal function, 1
